

1. Name of the Certificate ¹

Field of study 2890 L chemical and pharmaceutical industry

2. Translated title of the Certificate ²

Študijný odbor 2890 L chemický a farmaceutický priemysel (sk)

3. Profile of skills and competences

The holder of the certificate is able:

- to communicate correctly in the official language, both verbally and in writing,
- to communicate using one world language at least B1 level per the Common European Reference Framework,
- to adapt to changing living and working conditions, to work in a team and to take responsibility for tasks,
- to work with information, to use information and communication technologies and equipment,
- to apply basic mathematical relations and the laws of physics and chemistry when resolving practical tasks,
- to apply the principles of financial literacy, consumer protection and to understand business and the of work,
- to act environmentally with a view to a sustainable development strategy,
- to apply the principles of occupational health and safety and environmental protection,
- to describe chemical composition of processed raw material, semi-finished and finished products, their properties and performance during technological process,
- to prepare or assemble instruments, machines, devices and apparatus according to the instructions (regulations) applicable for their use in the given process,
- to operate machines and equipment of the relevant plant and ensure basic maintenance and optimal mode of their operation with regard to technological requirements, production effectiveness and minimizing the negative impact on the working and living environment,
- to take samples and prepare for analysis, perform simple analyses and evaluate the results according to rules,
- to use measuring and control devices and equipment and to maintain the required documentation,
- to work according to laboratory or technological regulations,
- to perform activities related to ordering, receiving, storage, preparation of goods for sale, provide consulting services and other services related to sale and production of goods,
- to adhere to technological and work discipline in laboratories and plants, to understand legal regulations in the field of chemistry and to ensure their observance.

4. Range of occupations accessible to the holder of the certificate ³

Graduates find work as qualified workers in the field of chemical-technological processes, pharmaceutical production, paper processing, rubber and plastics processing, environmental protection and creation, textile chemistry and other branches of industrial chemistry in plants and laboratories. Examples of possible job positions: operator, dispatcher, technician, foreman, quality controller in the field of industrial chemistry and in the environment sector. Examples of possible job positions: bookbinder, paper cutter.

The Certificate Supplement provides additional information to the certificate and as such it is not legally binding. Its format is based on the Decision No 2018/646 of the European Parliament and of the Council of 18th April on a common framework for the provision of better services in the field of skills and qualifications (Europass) and on repealing Decision No 2241/2004/EC.

For the purposes of a document issued in Slovakia, a certificate encompasses any document as specified in the Decree of the Ministry of Education of the Slovak Republic No. 326/2008 Coll. on the Types and Pertinent Details of Certificates and other Educational Forms, including Methods for their Recording and Archiving.

5. Official basis of the certificate

Body awarding the certificate

Authority providing accreditation / recognition of the certificate

Ministry of Education, Science, Research and Sport of the Slovak Republic
 Stromová 1
 813 30 Bratislava
 Phone: +421 2/59 374 111
www.minedu.sk

Level of the certificate (national or European)¹

Full secondary vocational education
 SKQF/EQF 4
 ISCED 454

Grading scale / Pass requirements

1 – excellent
 2 – praiseworthy
 3 – good
 4 – sufficient
 5 – insufficient

Access to next level of education / training 1

Higher vocational education SKQF/EQF 5, ISCED 554
 University, 1st degree, SKQF/EQF 6, ISCED 655, 645, 665
 University, 2nd degree – SKQF/EQF 7, ISCED 766

International agreements on the recognition of qualifications ¹

Legal basis

Act No. 245/2008 Coll. on Education and Training (Education Act) and on amendment of certain acts; Act No. 61/2015 Coll. on Vocational Education and Training and on amendment of certain acts; Decree of the Ministry of Education of the Slovak Republic no. 318/2008 Coll. on the completion of studies at secondary schools, as amended.

6. Officially recognised ways of acquiring the certificate

Successful completion of the four-year training program in the given field of study by passing the final examination.

7. Additional information

This Europass Certificate Supplement is valid together with the school leaving certificate issued by the relevant secondary school (the name and address of the school is specified on the certificate). More details about the education and training system are available at www.minedu.sk/data/files/7421.jpg, more details as to the organisation of the educational system are available at www.minedu.sk, and the details of educational programs are available at www.siov.sk and at the website of the specified school.

Entry requirements ¹

- Secondary vocational education in the given field of study, ISCED 353
- Fulfilment of prerequisites in the admission procedure
