Dovednosti budoucnosti

Svět se rychle mění a je stále propojenější, používáme více technologií, rozvíjí se digitalizace a projevuje se stále více automatizace. A změny, které se odehrávají čím dál tím častěji a které koronavirová pandemie ještě v mnohých oblastech urychluje, ovlivňují to, jak žijeme, jak pracujeme a jaké dovednosti potřebujeme v současném světě. Od roku 2017 se změnila požadavky na dovednosti o 70 %. Polovina zaměstnanců se bude muset do roku 2025 rekvalifikovat. Dnešní žáci a studenti budou pracovat i v profesích, které dnes ještě neexistují. S tím se mění i požadavky na dovednosti. Kde je získáte?

Škola, základ života? Ano, základem je a bude stále vaše kvalifikace, základní a střední vzdělání, na které můžete navázat průběžně dalším vzděláváním v průběhu celého života. **Vaše dosažené vzdělání a kvalifikace je hodnota, kterou vám již nikdo nevezme.** K prokázání vzdělání a středoškolské kvalifikace slouží dodatek k osvědčení, a to jako doklad i jako vodítko k tomu, kam směřovat dál. Středoškolské vzdělání obsahuje základ dovedností budoucnosti. Jak je rozvinete, je jen na vás!

Jaké dovednosti budou v budoucnu potřeba?

Jaké budou profese budoucnosti?

Měkké dovednosti

Digitální dovednosti

Podnikavost

Kompetence pro průmysl 4.0

Dovednost řízení vlastní kariéry

Zelené dovednosti (green skills)

Měkké dovednosti

Odpovědi na změny jsou měkké dovednosti a schopnost učit se

Jak se připravit pro budoucí trh práce? Změnám se nevyhneme, a tak nezbyvá než si osvojit dovednosti budoucnosti, které nám zajistí, že se s neustále zrychlujícími změnami zvládneme vyrovnat. Pomoci může budování univerzálnějších, **měkkých dovedností, jako je např. kreativita, komunikační dovednosti nebo schopnost řešení problémů a empatie.**

Vývoj top 10 dovedností

Mezi deseti nejvíce žádanými dovednostmi v letech 2015 i 2020 najdeme převážně měkké dovednosti. A předpokládá se, že to tak bude i v roce 2025, i když pořadí dovedností se v čase trochu mění. Mezi nejpoptávanější dovednostmi roku 2025 se objevují i digitální dovednosti, jako je používání a ovládání technologií, sledování trendů nebo programování.

Dovednosti 2015

1. Řešení složitých problémů
2. Spolupráce s ostatními
3. Vedení lidí
4. Kritické myšlení
5. Vzdělávání
6. Kontrola kvality
7. Zaměření na službu
8. Úsudek a rozhodování
9. Aktivní naslouchání
10. Kreativita

Dovednosti 2020

1. Řešení složitých problémů
2. Kritické myšlení
3. Kreativita
4. Vedení lidí
5. Spolupráce s ostatními
6. Emoční inteligence
7. Úsudek a rozhodování
8. Zaměření na službu
9. Vzdělávání
10. Kognitivní flexibilita

Dovednosti 2025

1. Analytické myšlení a inovace
2. Aktivní učení a strategie učení
3. Řešení složitých problémů
4. Kritické myšlení a analýzy
5. Kreativita, originalita a iniciativa
6. Vedení lidí a sociální vliv
7. Používání a ovládání technologií, sledování trendů
8. Design a programování technologií

VIDEO ON NEW EUROPASS WITH SING LANGUAGE

ABOUT THIS GOOD PRACTICE

During the previous action grant we have made the production of several videos for the new Europass and Europass tools with the aim to promote the use of Europass. The innovation about this activity was the fact that we have included Sing Language so as to be seen by a wider audience such as people with hearing problems.

EUROPASS METHODOLOGICAL WORKSHOP FOR TEACHER

ABOUT THIS GOOD PRACTICE

By being hosted by the Tempus Public Foundation, HU NEC has access to the information on the projects' life cycle, therefore can take advantage of this. Methodology and content of an information session were developed about international experience and Europass tools relevant for VET students (CV and ECS) that can be used by beneficiary institutions right after their students return from abroad.

TRAINING CYCLE AT THE NATIONAL EDUCATION INSTITUTE (IFEN)

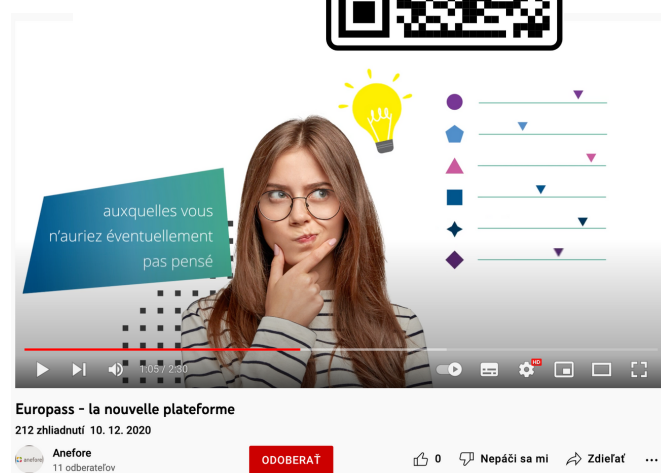

ABOUT THIS GOOD PRACTICE

Every school year the Luxembourgish NEC organises online teacher trainings with the direct requirement that teachers organise physical Europass workshops for their pupils. This sequential hybrid format has the advantage of offering short distant learning units to teachers, while a high-quality knowledge transfer is ensured through the physical component in class (workshop with pupils).

Link to a video shown during the first Europass walk-through. This video can be used by teachers to introduce the topic to their pupils:

EUROPASS CONFERENCES

ABOUT THIS GOOD PRACTICE

Europass conferences were made with teachers from primary schools from Skopje. These conferences were lasting 2 and a half days. In this conferences the teachers from primary schools made all the documents on Europass platform by them self. After finishing the conferences all the teachers learn other teachers and student how to make the documents and portfolio by themselves in their own schools. After finishing this process the number of users in Europass platform from North Macedonia really increase each month.

EUROPASS WORKSHOPS

ABOUT THIS GOOD PRACTICE

The goal of the Europass workshops, which last 45 and 90 minutes, is to convey information, increase awareness of the www.europass.eu platform, and understand and use modern tools to support lifelong learning. Pupils and students work independently and in groups, their task is to assume the role of employers and discuss which of the applicants they would choose for their company and why, answer questions focused on their characteristics and interests. In the end, they always find that even as elementary or high school students they can present themselves and have something to offer the world of work.
